1. Is the proposed development site located within a bush fire prone area? □ YES □ NO

If the development is not mapped as bush fire prone and Council has concerns regarding bush fire, the development application should be referred to the RFS under section 79C of the EP & A Act.

2. Proposed Development Type:
- [ ] Residential Subdivision
e - [ ] Child Care
- [ ] SEPP (SL)
e - [ ] Strata Subdivision
- [ ] School
e - [ ] Student Accommodation
- [ ] SEPP (SL)
e - [ ] Student Accommodation
- [ ] Hospital
e - [ ] Hospital
- [ ] Group Home
e - [ ] Manufact’d Home Estate
- [ ] Respite Care
- [ ] Retirement Village
- [ ] Tourist
- [ ] Sheltered Workshop
- [ ] Boundary Adjustment/Lot Construction
- [ ] Other

If you replied YES to any of the above and to 1, the DA is ‘integrated development’ for the purposes of Section 100B of the Rural Fires Act, 1997 and is required to be assessed by the RFS.

Has payment ($320) been included with this referral? □ YES □ NO

The following information must be sent with this referral. Referrals that are received by the RFS with inadequate Information may be returned to Council for additional information.

3. A copy of the Statement of Environmental Effects □ YES □ NO

4. Set of plans including site and proposed development □ YES □ NO

If applicant provides a bush fire assessment report, has the following been provided by the applicant or consultant (original colour report) ?

5. A description of the property □ YES □ NO
   - Provide Lot No., DP of subject land,
   - Proposed lot sizes,
   - Street address with locality map,
   - Zoning of subject land and any adjoining lands,
   - Staging issues, if relevant, and description of the proposal, and
   - Aerial or ground photographs of subject land including contours along with the existing and proposed cadastre
7. The classification of vegetation out to 140 metres from the development consistent with the identification key in PBP 2006 (page 54-55).

8. An assessment of the effective slope to a distance of 100 metres:
   - the effective slope is the slope under the vegetation assessed as being a hazard in relation to the development and not the slope within the asset protection zone.

9. Identification of any significant environmental features.

10. Details of threatened species populations, endangered ecological communities and critical habitat known to the applicant:
    - documentation supplied to council in relation to flora and fauna.

11. Details of aboriginal heritage known to the applicant.

12. A bush fire assessment that addresses:
    - asset protection zones (including any management arrangements, any easements including those proposed on adjoining lands),
    - siting and adequacy of water (in relation to reticulation rates or where dedicated water storage will be required), and
    - adequacy of access and egress

13. An assessment of how the development complies with the acceptable solutions, performance requirements and relevant specific objectives within Chapter 4 of PBP 2006.

APZs should be identified on plans for interface allotments by either a building line or building footprint. In some cases building envelopes are identified which include other building constraints. Unless otherwise specified, a building envelope will be taken as the building footprint.

Where an applicant proposes not to follow the acceptable solutions for particular bush fire protection measures, detailed evidence must be provided demonstrating compliance with performance criteria and intent of the measures proposed.
