

GET READY FOR A BUSH FIRE

There are four simple steps to get ready for a bush

Get prepared for the Bush Fire Season and make your Bush Fire Survival Plan Now. Go to www.myfireplan.com.au and discuss with your family what to do if a fire starts

Bush Fire Preparation Map

PAMBULA BEACH

WO	RKS	PRC	GR	ΔΜ

Map Ref No.	Strategy	Action	Responsible Agency	Target / Action Date (Year)
1	Hazard Reduction	Monitor / Maintain Strategic Fire Advantage Zones	I National Parks & Wildlite Service	
2	Hazard Reduction	Monitor / Maintain Strategic Fire Advantage Zones	Crown Lands / NSW Rural Fire Service	Annually & Ongoing
3	Hazard Reduction	Monitor / Maintain Asset Protection Zone	National Parks & Wildlife Service	Annually & Ongoing
4	Hazard Reduction	Monitor / Maintain Asset Protection Zone	Bega Valley Shire Council	Annually & Ongoing
5	Preparedness	Maintain APZ around dwellings in Resident Preparation Area and develop / maintain personal Bushfire Survival Plan	Private Property Owners	Annually & Ongoing
6	Hazard Reduction	Monitor / Maintain Asset Protection Zone	Crown Lands	Annually & Ongoing
7	Ignition Management	Monitor / Maintain Linear Firebreak Remove trimmed vegetation from site	Essential Energy	Annually & Ongoing
8	Hazard Reduction	Monitor / Maintain Land Management Zone Remove trimmed vegetation from site	Crown Lands / Bega Valley Shire Council	Annually & Ongoing
9	Hazard Reduction	Monitor / Maintain Transport Corridor Fire Break	Bega Valley Shire Council	Annually & Ongoing
10	Hazard Reduction	Carry out hazard reduction program as per	National Parks & Wildlife Service	Annually & Ongoing

Is your property fire-safe?

Zone	Purpose	Supression Objectives	Zone Characteristics
Linear Firebreak / Iransport Corridor Firebreak	A strategic fuel reduced feature in the landscape managed to provide fuel reduced areas from which fire can be suppressed	 Reduce ignition potential by providing fue reduced areas along road and rail corridor which are adjacant to bush fire hazards. Provide areas from which fire can be suppressed. 	
Land Management Zone	To meet relevant land management objectives in areas where APZs, IMZs or SFAZs are not appropriate.	As per the land management fire protection objectives of the responsible land manager. To undertake mosaic burning to reduce the likelihood of spread of fires.	An area in the landscape where land management outcomes are also prioritised such as those related to social, cultural or environmental values, or those related to the management of agricultural and natural resource assets.
Asset Protection Zone	To protect human life, property and highly valued public assets and values.	To enable the safe use of Direct Attack suppression strategies within the zone. To minimise bush fire impacts on undefendable assets.	As per RFS document Standards for Asset Protection Zones.
Strategic Fire Advantage Zone	To provide strategic areas of fire protection advantage which will reduce the speed and intensity of bush fires, and reduce the potential for spot fire development; To aid containment of wildfires to existing management boundaries.	To improve the likelihood and safe use of: Parallel Attack suppression strategies within the zone. and/or Indirect Attack (back burning) in high to very high fire weather conditions within the zone. To reduce the likelihood of: Crown fire development within the zone. and/or Spot fire ignition potential from the zone.	Zone width related to suppression objectives and dependant upon: *Topography *Aspect *Spotting propensity *Location of adjacent firebreaks *Mosaic pattern of treatment Assess Overall Fuel Hazard (OFH) once vegetation communities reach minimum fire thresholds within this plan. Management practices should aim to achieve mosaic fuel reduction patterns so that the majority of the SFAZ has an OFH of less than high.
Resident Preparation Zone	To identify that residents / property owners have a vital role to play in bush fire risk management and that they	To increase the preparedness of residents for bush fire and ensure that vegetation in close proximity to residential assets are adequately maintained. To provide a defendable space for residents / fire	Residents / property owners should strive to achieve a 'Fire-Safe' property as outlined in the illustration above. Concerns regarding the bush fire safety of neighbouring properties should be reject with the NSW Purel Fire Service.
