	LEGEND	Map Description	WARNING INFORMATION	KEY MAP
RECEIVENTER AND A LONG COMMENT	Bush Fire Management Committee (BFMC)	Environmental Risk Current	1. This map has been prepared by a NSW Government Agency ("the Agency") using data supplied to it by other agencies and entities.	
	Environmental Risk Current	<ul> <li>This bush fire risk map shows the current level of modelled bush fire risk to predicted Environmental assets across the BFMC. Environmental assets used in the model are based on data from BioNet, best available Threatened Ecological Community mapping, protected land regulation mapping and other key data sets. Environmental assets have been subject to a quantitative risk modelling process that considers the environmental significance, vulnerability, fire history,</li> <li>2. The Agency has not verified or checked the data used to prepare this map. The map may contain errors and omissions. The Agency has not made any attempt to ground truth the map. The map may contain errors and omissions. The Agency has not made any attempt to ground truth the map. The map may contain errors and omissions. The Agency has not made any attempt to ground truth the map. The map may contain errors and omissions. The Agency has not made any attempt to ground truth the map. The map may contain errors and omissions. The Agency has not made any attempt to ground truth the map. The map may contain errors and omissions.
