PRODUCTION INFORMATION

Base Data: LPMA Cadastre and Topo Database
 Map Projection: GCS GDA 1994
 Print Date / Time: 23/06/2017 1000 Hrs
 Produced by: PIES North Ian C
 1 grid square = 1 km²

Approved: 21/06/2017

WARNING INFORMATION

- This map has been prepared by the NSW Rural Fire Service ("The Service") using data supplied to it by other agencies and entities. See the "Data Dictionary" for further information about the sources of this data.
- The Service has not verified or checked the data used to prepare this map. The map may contain errors and omissions. The Service has not made any attempt to ground truth the map.
- There will be a margin of error in relation to the location of features recorded on the map. The Service is unable to specify the extent or magnitude of that margin of error.
- Significant changes may have occurred;
 - In the time between which the data was originally collected and the map produced; and
 - Since the map was produced.
- Users must, wherever possible, ground truth the map before relying on it or the accuracy of the map or the information recorded on the map for any purpose.
- The Service accepts no responsibility for any injury loss or damage arising from the use of this map or any errors or omissions in the information recorded on the map.

Hawks Nest Works Treatment Table					
Strategy	Action	Map Ref	Responsible Agency	Supporting Agency	Target / Year
Property Planning	Review Bush Fire Emergency Evacuation Plan for Peter Sinclair Gardens	A	Land Manager	NSWRFS, FRNSW	Annually
	Develop & review Bush Fire Emergency Evacuation Plan for Jimmys Beach Holiday Park		Land Manager	NSWRFS, FRNSW	2017 Annually
	Inspect & maintain Neighbourhood Safer Place	H	NSWRFS	LGA	Ongoing
	Implement Static Water Supply (SWS)		NSWRFS	FRNSW	Ongoing
	Develop & Review Bush Fire Emergency Evacuation Plan for Mid Coast Water Waste Treatment Plant		Land Manager	NSWRFS, FRNSW	2017 Annually
Hazard Reduction Mechanical	Inspect & maintain APZ as per consent conditions to Peter Sinclair Gardens by slashing/trimming/ hand tool maintenance	B	Land Manager	NSWRFS, LGA	2017, 2018, 2019, 2020, 2021
	Maintain APZ to Golf Club through slashing/trimming/ hand tool maintenance	C	Land Manager	DPI	Ongoing
	Create & maintain APZ to Mid Coast Water Waste Treatment Plant Offices & workshops	D	Land Manager	DPI	2017 Ongoing
	Inspect & maintain Montera APZ	E	DPI / LGA	NSWRFS	Ongoing
	Inspect & maintain Albatross APZ	F	DPI	NSWRFS	Ongoing
Hazard Reduction Burning	Inspect & maintain APZs at North Coast Holidays Parks—Jimmys Beach	G	DPI	NSWRFS	Ongoing
	Conduct prescribed burning in Strategic Fire Advantage Zone using mosaic fuel management practices once fire regimes are reached/ or 50% of fuel loads exceed high		NSWRFS, DPI	FRNSW	20% Overlap the hazard to be managed at the time of the burn
	Manage Land Management Zone to conserve biodiversity and to protect cultural heritage		Land Manager	NSWRFS	Ongoing
	Conduct hazard reduction activity in LMZ adjoining APZ to Peter Sinclair Gardens for fire protection objectives	I	DPI	NSWRFS, FRNSW	2017
	Conduct hazard reduction activity in LMZ adjoining Mid Coast Water Treatment Plant for fire protection objectives	J	DPI	NSWRFS	2017, 2018, 2019, 2020, 2021
Preparedness	Conduct hazard reduction activity in LMZ adjoining Mirreen & Conrail St & Beach Road	K	Land Manager	NSWRFS	Ongoing
	Develop Pre-incident Plan for Peter Sinclair Gardens	A	FRNSW	NSWRFS	2017
	Develop Pre-incident plans for North Coast Holiday Parks	G	FRNSW	NSWRFS	2017
	Develop & implement maintenance program for Fire Trails & Fire Access Ways		DPI	NSWRFS	2017
	Inspect Fire Trails		DPI	NSWRFS	Annually
Community Education	Create new Fire trail to connect Montera Ave with Albatross Fire Trail		DPI	NSWRFS	2017
	Promote Community Protection Plan		NSWRFS	FRNSW	Ongoing
	Conduct street meetings to promote property preparedness, Bush Fire Survival Plans & to promote Neighbourhood Safer Place Program		NSWRFS, FRNSW	LGA	Ongoing
Ignition Management	Develop engagement strategy for increased population through holiday periods		NSWRFS	FRNSW / LGA	Annually
	Manage use of fire in the environment through Fire Permits, Hazard Reduction Certificates & campfire restrictions		NSWRFS	LGA, FRNSW	Annually
	Restrict access to Fire Trails		DPI	LGA	Ongoing

Zone	Purpose	Suppression Objectives	Zone Characteristics
Asset Protection Zone	To protect human life, property and highly valued public assets.	To enable the safe use of Direct Attack suppression strategies within the zone. To minimise bush fire impacts on undefendable assets.	As per RFS document Standards for Asset Protection Zones.
Strategic Fire Advantage Zone	To provide strategic areas of fire protection advantage which will reduce the speed and intensity of bush fires, and reduce the potential for spot fire development. To aid containment of wildfires to existing management boundaries.	To improve the likelihood and safe use of Parallel Attack suppression strategies within the zone, and/or Indirect Attack (back burning) in high to very high fire weather conditions within the zone. To reduce the likelihood of Crown fire development within the zone, and/or Spot fire ignition potential from the zone.	Zone width related to suppression objectives and dependant upon: • Topography • Aspect • Spotting propensity • Location of adjacent firebreaks • Mosaic pattern of treatment Assess Overall Fuel Hazard (OFH) once vegetation communities reach minimum fire thresholds within this plan. Management practices should aim to achieve mosaic fuel reduction patterns so that the majority of the SFAZ has an OFH of less than high.
Residential Preparation Zone	To identify that residents have a vital role to play in bush fire risk management and that they are responsible for their own property preparedness.	To increase the preparedness of residents for bush fire and ensure that vegetation in close proximity to residential assets are adequately maintained. To provide a defensible space for residents / fire fighters and complement hazard reduction works carried out within Asset Protection Zones / Strategic Fire Advantage Zones.	Residents should strive to achieve a 'Fire-Safe' property as outlined in the illustration above. Concerns regarding the bush fire safety of neighbouring properties should be raised with the NSW Rural Fire Service.
