ACTIVITY
SHEET 2**

MODERATE

If a fire starts, it can probably be controlled.

PLAN AND PREPARE.

Most fires can be controlled before they become dangerous.

Make a bush fire plan with your family and prepare your property for bush fire.

Stay up to date and be ready to act if there is a fire.

HIGH

If a fire starts, it could be dangerous.

BE READY TO ACT.

There is a heightened risk.

If a fire starts, your life and property may be at risk.

Be alert for fires in your area and decide what you will do if a fire starts.

The safest option is to avoid bush fire risk areas.

EXTREME

If a fire starts, it will spread quickly and be extremely dangerous.

**TAKE ACTION NOW
TO PROTECT YOUR LIFE
AND PROPERTY.**

These are dangerous conditions for a bush fire.

Check your bush fire plan and make sure your property is fire ready.

If a fire starts, immediately put your bush fire plan into action.

Avoid travelling to bush fire risk areas.

CATASTROPHIC

If a fire starts, it will spread extremely quickly and lives could be lost.

**FOR YOUR SURVIVAL,
LEAVE BUSH FIRE
RISK AREAS.**

These are the most dangerous conditions for a bush fire.

If a fire starts, you may not have time to leave, and help may not be available.

For your survival, do not be in bush fire risk areas.

Stay safe by going to a safer location early in the morning or the night before.
