1. Purpose

1.1 This Service Standard updates and replaces Service Standard 1.3.2 Powers of Officers version 3.1

1.2 Section 22(1) of the Rural Fires Act 1997 (the Act) provides that an officer of a rural fire brigade or group of rural fire brigades of a rank designated by the Commissioner may:

(a) exercise any function conferred on the officer by or under the Act; or

(b) take any other action that is reasonably necessary or incidental to the effective exercise of such a function.

1.3 Exercising such functions and taking such actions may only be for the purpose of:

(a) controlling or suppressing a fire; or

(b) protecting persons, property or the environment from an existing or imminent danger arising out of:

i. a fire;
ii. an incident;
iii. or other emergency.

1.4 The Commissioner has determined that a Brigade or group officer of the rank of deputy captain or above may exercise any function conferred on the officer or take any action authorised by or under the Act.

1.5 Section 22(2A) of the Act provides that any function that may be exercised, or action that may be taken, by a brigade or group officer may be exercised or taken by the Commissioner.

1.6 Pursuant to the provisions of s14 of the Act the Commissioner has delegated the functions conferred upon him by section 22(2A) to those officers of the NSW RFS of and above the rank of Officer Level 1.

---

A function conferred on an officer or an action authorised by the Service Standards is a function conferred or an action authorised under the Act.
1.7 Sections 23 to 32 of the Act list, by way of example, some of the ways in which the functions referred to in section 22 may be exercised. These provisions do not limit the generality of section 22.

1.8 Section 22(2) of the Act provides that an officer may exercise a function or take any action authorised by section 22(1) with such other persons as the officer considers necessary for the purpose.

2. Policy

Powers of officers of a rural fire brigade and groups of rural fire brigades

2.1 The following provisions are examples of the way in which the functions referred to in clause 1.2 of this Service Standard may be exercised. These examples are not exclusive nor are they intended to limit the generality of the powers conferred upon an Officer by the Act.

2.2 An Officer may:

(a) enter any premises (refer to definition of “premises” in clause 2.15) for the purpose of exercising any function conferred or imposed on the Officer by or under the Act;

(b) if he or she is the officer in charge of a brigade or group of brigades, close any street or public place in the vicinity of a fire, incident or other emergency to traffic;

(c) if persons are, or property or the environment is, endangered or likely to be endangered by a fire, incident or other emergency:

   i. pull down, cut and remove fences on any land;

   ii. destroy, pull down or remove any buildings or structures on any land;

   iii. destroy or remove any living or dead vegetation on any land;

   and

   iv. establish firebreaks on any land;

(d) for the purpose of controlling or suppressing a fire:

   i. take and use any water from any source on any land; or

   ii. use any hydrant or water reticulation system vested in or under the management or control of any water supply authority, public authority or body;

(e) light a fire for the purpose of back burning;

(f) shut off or disconnect any gas or electricity supply;

(g) move any vehicle, vessel or other object; and/or

(h) remove a person from any land or building or restrain a person from entering or re-entering any land or building.

2.3 Before entering or taking any action in relation to Country Rail Infrastructure Authority or Railcorp NSW land or property, permission
must first be obtained from the Authority or Corporation. Refer to OP 1.2.3 Working in the Rail Corridor.

2.4 Before taking action of the sort listed in clause 2.2 of this Service Standard an Officer must, if practicable:

(a) ensure that the action is taken in a way that minimises damage to property;

(b) consult with the owners or occupiers of the property before taking action; and

(c) take into consideration environmental, heritage, cultural and historical conservation concerns.

2.5 If practicable, action involving:

(a) the closure of any street or public place or traffic control; or

(b) the removal or restraint of a person;

should be taken by a member of the NSW Police Force.

2.6 Before removing or destroying any building or structure the Officer should, if practicable:

(a) isolate or cordon off the building or structure concerned;

(b) obtain technical advice from an engineer or local authority as to whether or not the building or structure can be made temporarily safe or, if it must be removed or destroyed, the preferred method of removing or destroying the building;

(c) remove or destroy only that part of the building or structure that is, in the Officer’s opinion, necessary to render the area safe; and

(d) utilise personnel with specialist engineering or demolition skills.

2.7 If practicable the owner of any vehicle, vessel or other object should be given the opportunity to move the vehicle, vessel or other object.

2.8 Before disconnecting any water, electricity, gas supply or other service the Officer must first:

(a) determine whether the supply can be safely disconnected without further endangering life and property; and

(b) if practicable:
   i. seek the assistance of the relevant supply authority;
   ii. utilise competent personnel to disconnect the supply;
   iii. advise those persons effected by the disconnection; and
   iv. where possible minimise the extent to which services are disconnected.
Entry of Premises

2.9 An Officer may enter any premises for the purpose of exercising any function conferred or imposed on the Officer under the Act if reasonable notice is given to the owner or occupier of an intention to enter.

2.10 An Officer may enter any premises for the purpose of exercising any function conferred or imposed on the Officer under the Act without notice:

(a) with the consent of the owner or occupier;

(b) if the part of the premises on which entry is made is open to the public; or

(c) if entry is required urgently for the purpose of:
   i. controlling or suppressing a fire;
   ii. protecting persons, property or the environment from an existing or imminent danger arising out of:
      ▪ a fire;
      ▪ an incident; or
      ▪ other emergency;
   iii. determining if there is a fire on or near the premises; or
   iv. investigating the cause and origin of a fire.

2.11 An Officer may use reasonable force to enter premises if he or she is of the opinion:

(a) that it is necessary to use force to enter premises: and

(b) it is necessary for the purpose of:
   i. controlling or suppressing a fire;
   ii. protecting persons, property or the environment from an existing or imminent danger arising out of:
      ▪ a fire;
      ▪ an incident; or
      ▪ other emergency;
   ▪ determining if there is a fire on or near the premises; or
   ▪ investigating the cause and origin of a fire.

2.12 If the owner or occupier of any premises

(a) actively prevents access; and

(b) a member of the NSW Police Force is not present

force should only be used if the Officer is of the opinion that delay may place a person’s safety at risk.

2.13 If an Officer uses force to enter premises he or she must, as soon as practicable, inform the Commissioner by reporting the incident to a District Manager or Fire Control Centre.
When entering premises or taking action on premises an Officer must be in possession of an Authority Card issued in accordance with SOP 1.3.2.1 Authority Cards.

Premises are defined in the Act to include both buildings and land. Premises do not include “managed land” (land occupied by the Department of Premier and Cabinet, Department of Trade and Investment, Regional Infrastructure and Services, Railcorp NSW, Transport Construction Authority, Country Rail Infrastructure Authority) and land within the catchment area of a water supply authority.

An Officer may direct a member of the NSW RFS to:

(a) exercise any function conferred on a brigade or group Officer by or under the Act, or
(b) take any action that is reasonably necessary or incidental to the effective exercise of such a function, for the purpose of protecting persons, property or the environment from an existing or imminent danger arising out of a fire, incident or other emergency notwithstanding the fact that the officer is not physically present at the place where the function is to be exercised.

The Officer may give the direction by radio, telephone or any other form of communication.

Where such a direction is given by an officer, he or she must endeavour to ensure that an officer attends the scene where the function is to be exercised as soon as is practicable after the direction has been given.

Authority Cards

An Authority Card must be issued to:

(a) officers of rural fire brigades;
(b) officers of groups of rural fire brigades;
(c) officers of or above the rank of Officer Level 1; and
(d) the Commissioner.

Authority Cards are to be issued in accordance with SOP 1.3.2.1. Authority Card remains the property of the NSW RFS at all times.

An Authority Card is deemed to have been cancelled and must be returned to the Issuing Authority immediately upon the person to whom it is issued:

(a) ceasing to occupy the position in respect of which the Authority Card was issued; or
(b) receiving a letter from the Commissioner or the Issuing Authority requiring the return of the Authority Card.
